

Type 3 All-Hazards Incident Management Team Training Course

USFA O-305

DESCRIPTION

AHIMT members gain the foundational knowledge of the National Incident Management System (NIMS) Planning Process needed for ICS position-specific curricula. Led by some of the nation's most experienced instructors, IMTC's *All Hazards Incident Management Team (AHIMT)* training course is a primer for members of state, regional, non-governmental, tribal and corporate AHIMTs, and other emergency response personnel to better understand their responsibilities and authority within the NIMS System.

The course provides AHIMT professionals with crucial insights into highly successful AHIMT performance. Teams who take the course become more cohesive units, an especially valued characteristic during complex incidents or major events that extend into the second operational period.

IMTC designs the course to give participating teams the knowledge and NIMS-based skill sets required to support an existing ICS structure, to assume command of an incident as needed, and to simplify the transition to a Type 2 or Type 1 IMT for incidents of national significance, if required.

THE INSTRUCTORS

Each IMTC instructor possesses significant Command and General Staff operational experience and is assigned based on the relevance of the instructor's specific ICS background to each client's response environment.

- ✓ Tried and true teaching/training abilities proven through years of AHIMT, EPA, EMI, NWCG and USCG course development and team training experience.
- ✓ Decades of field command level experience.
- ✓ Extensive AHIMT course delivery knowledge.
- ✓ Respected national NIMS/ICS/AHIMT backgrounds.
- ✓ Trusted AHIMT/ICS instructional design credentials.

WHY CHOOSE IMTC?

IMTC, the nation's most trusted All-Hazards Incident Management Team training provider, was the sole developer and the field-tester of the original 18 ICS Position-Specific Courses for the Department of Homeland Security/Federal Emergency Management Agency and the Emergency Management Institute.

- ✓ Most experienced O-305 and Command and General Staff training and mentoring organization.
- ✓ Most experienced provider to agencies establishing, training and maintaining Type 3 All-Hazards Incident Management Teams.
- ✓ Designed, created and delivered NIMS-based ICS training for the entire EPA.
- ✓ Trained more incident management team personnel than any other training provider.

"We left with new skills to operate as a cohesive team. That's the best value we could receive."

Together the IMTC AHIMT instructional cadre represents almost a millennium of front-line training experience with the USFA O-305, the basic and advanced level DHS ICS courses, and the NWCG courses. IMTC provides an unmatched combination of knowledge, skill and understanding that delivers an exceptional learning experience to participants—and delivers proven value to their agencies.

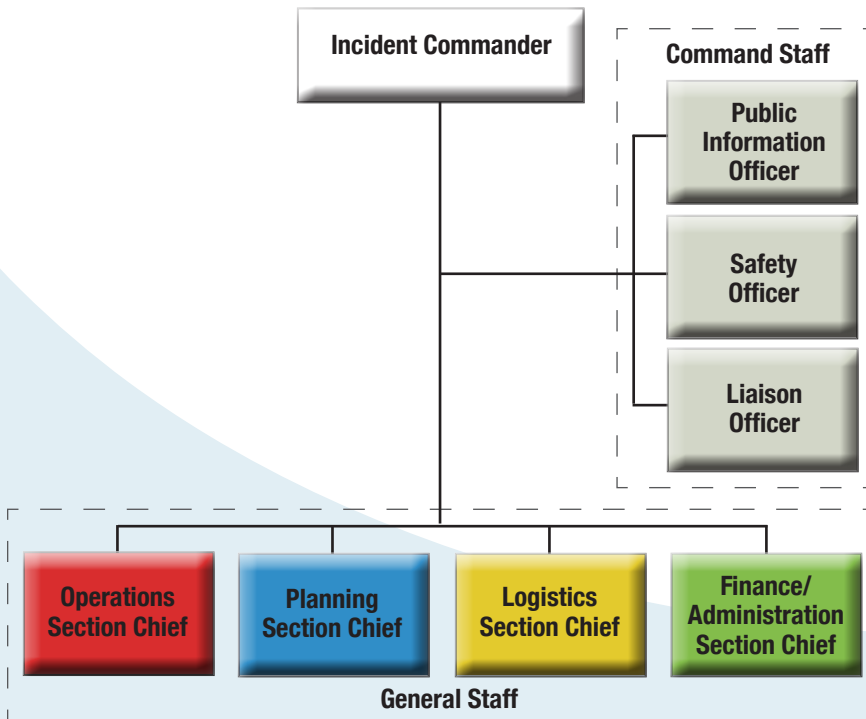

Course Specifics

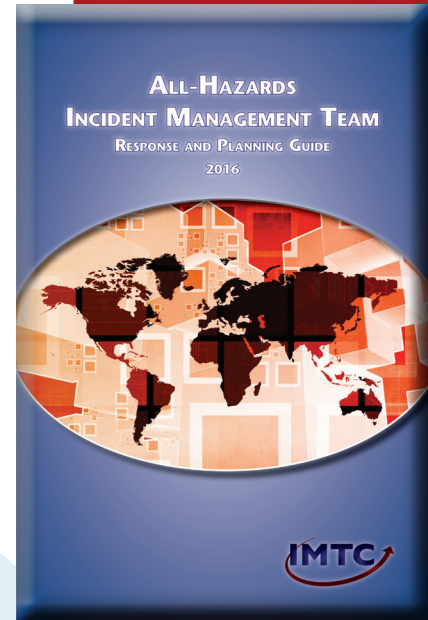

Type 3 All-Hazards Incident Management Team Training Course

Who is the course designed for?

The AHIMT Course is designed for Incident Managers and ICS Command and General Staff personnel whose teams may function for multiple operational periods on large or more complex incidents or planned events.

ICS Organizational Structure — Command and General Staff

Course includes the All-Hazards Incident Management Team Response and Planning Guide textbook for each student.

What does the course cover?

The AHIMT course (O-305) is a comprehensive and interactive 40-hour course.

- Unit 1** Course Overview and Introduction
- Unit 2** Leadership and Team Dynamics
- Unit 3** Introduction to the Planning Process
- Unit 4** The Planning Cycle (Parts 1-3)
- Unit 5** Jurisdiction-Specific Functional Exercise

When is the course offered?

IMTC can accommodate even the most difficult scheduling situations.

Where is the course given?

IMTC provides everything needed to present the course at your facility. IMTC's logistics team has supported more than 1000 ICS courses throughout the country with all instructional materials delivered on time and ready for the course presentations. Our logistical and support services include real-time tracking, follow-up delivery and inventory confirmation, plus back-up procedures to ensure on-time delivery of correct course materials to the proper location.

AHIMT curricula updates

IMTC continually supplements its AHIMT course with the most current FEMA and DHS guidelines and field information so that teams benefit from the latest changes, lessons learned, and the most recent national developments.

Why to choose IMTC!

IMTC's All-Hazards Incident Management Team training course builds effective teams, and IMTC's instructional cadre is the standard by which all other instructors are measured.
